

# Tumble dryer

## QuickDry

### Features and benefits

- A knob for simple programme selection and start
- Large, clear display
- Time and temperature selection for flexible use
- Residual Moisture Control for an accurate drying result and a low energy consumption
- Reversing drum for less tangling of large items
- Anti-wrinkle function prevents wrinkling of textiles if the dryer is not emptied
- Stainless steel drum
- The door can be switched from left to right mounting
- Powder coated black front panel, side panels and top cover

### Main options

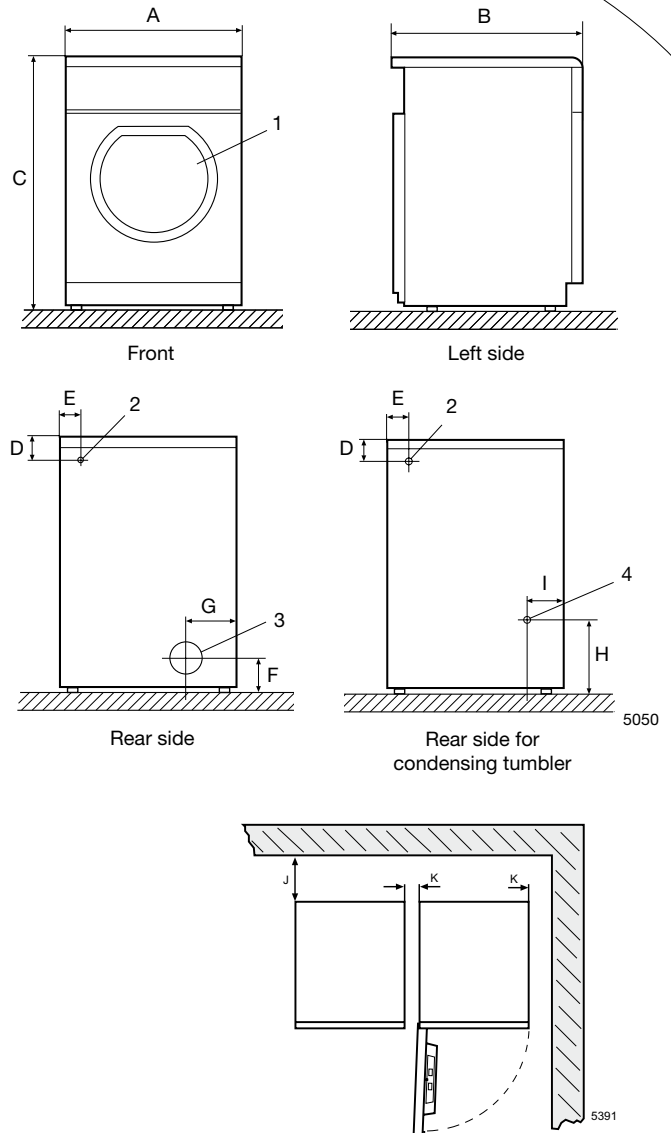

- Stacking frame for mounting QuickDry on top of QuickWash
- Stainless plinth for raising the machine to a comfortable height, 290 mm
- QuickDry is available as an evacuation dryer or condensation dryer

### Ventilation QuickDry with condensation unit

The energy used to dry your washing ends up in the room in the form of heat. This is why the room becomes too hot and requires ventilation when the tumble dryer is used. An air change rate of 400 m<sup>3</sup>/h is required with an outdoor temperature of 0 °C and a desired room temperature of 20-25 °C. A thermostat-controlled fan – part No. 9888020-43 – is available as an optional extra. The fan and fresh air intake are positioned as shown in the illustration. The advantage of condensation dryers is that you do not have to evacuate fluff gathered and moist air.

# Washer extractor

## QuickWash

### Features and benefits

- A knob for simple programme selection and start
- Large, clear display
- AWS – Automatic Weighing System with Compass Control – determine the wash load and adopt the water intake accordingly. Savings on water and energy if machine is not fully loaded
- Front-mounted detergent drawer with four compartments for powder or liquid detergent
- High extraction force for efficient dewatering
- Panels and frame made from galvanized steel
- Inner and outer drums made from stainless steel
- Powder coated black front panel, side panels and top cover
- Strong door and hinges. Easy-grip, ergonomic door handle which makes the door easy to open and close
- Drain pump
- Frequency-controlled motor with no carbon or brushes
- Door seal in the door, does not wear when the machine is loaded and unloaded

### Main options

- This machine can be upgraded to include the “Towel” programme range for washing very dirty towels, cloths or clothes
- Stacking kit to install tumble dryer QuickDry on top to save space
- Plinths for raising the machine to a comfortable height (height 100 mm when installed with a tumble dryer, or 290 mm)
- Connecting hoses
