

SPEED QUEEN® COMMERCIAL LAUNDRY SOLUTIONS

Top Load Washer

SWNBX2SP115TW02

Built Better to Last Longer

With a two-speed motor, the top load washer's 710 RPM maximum spin speed ranks among the highest in the industry, reducing drying times and handling high turnover volumes during peak periods. Our curved four-vane agitator delivers an industry-best 210° wash stroke, plus the new top panel wide-fan spray system rinses fabrics more evenly. It all adds up to unparalleled cleaning results. Speed Queen's exclusive stainless steel tub comes with a lifetime warranty, and actually becomes smoother with each use, so it won't pill, snag or fray clothes. An air gap prevents contamination from gray water back siphon. Fast cycle times allow laundromat owners to capitalize on the opportunities for additional profits..

A Proven Performer

Speed Queen commercial top load washers allow a coin laundry owner to provide an assortment of machines for customers varying needs. They are particularly liked by people who separate items into smaller loads. Constructed from heavy-duty components, from the stainless steel washtub and all-metal transmission to the commercial-grade cabinet finish, you're ensured an extended life for your coin laundry investment.

Control

MDC / MDC II Micro

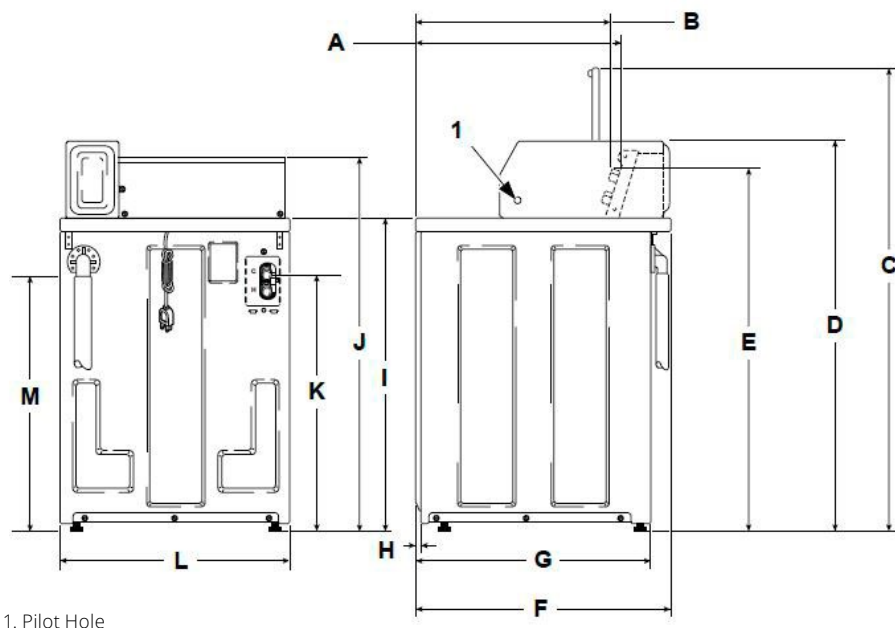

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the drying process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, coin mechanisms and central payment systems, MDC offers many cycle selections and basic audit features.
